

**Thriving in a Recession
– a no risk approach.**

Attention: President/CEO/Owner

Times are tough and we are all looking for solutions on how to respond to the current economic challenges.

The only way out of a recession is to move forward and take action.

Recent Success Stories

- A manufacturer with 20 employees received \$50,000.00 in government grants for the purchase of new machinery to improve plant productivity.
- Small business owner improves yearly personal cash flow by \$ 16,000.00 (through tax savings and legally opting out of CPP payment)
- Saved \$ 75,000.00/year in packaging costs for small food distributor
- Secured 15 WebEx meetings with lean manufacturing/operations executives in the last 30 days for U.S. client that offers a web-based lean manufacturing/distribution solution.

FREE EVALUATION OF YOUR PROFIT GROWTH OPPORTUNITIES

How does it work?

It is quite simple! Contact us at **519-886-1831** or bw@bccinternational.com to arrange for a phone interview. We will email to you an overview of proven profit growth services and some questions.

The first 5 qualified callers will receive a Free Press Release or News Release about your company, products and services.

It will take us about 15-30 minutes to determine if we can help you increase your profits. We then will meet to further discuss your opportunities and prioritize the objectives.

There is no cost or obligation until you decide on a program. Many programs such as government grants and our expense reduction program are contingency based meaning you pay only when you receive money or realize actual cost savings.

Act now – before it is too late!
